DR. FRANCISCO T. DUQUE III, MSc  
Secretary of Health  
Department of Health  
ftduque@doh.gov.ph

Dear Secretary Duque,

It is an extraordinary time for the world and our country to unite and collaborate in response to the COVID-19 pandemic. It was very timely that Dr. Jaime Montoya has spoken with us yesterday and a preliminary meeting was conducted this morning that enabled us to realize that PCRPP may be of help to your good office. Thus, we, from the Philippine Clinical Research Professionals (PCRPP) express our intent to volunteer our skills and services, pro bono, to aid relevant activities and projects by the Department of Health (DOH).

The Philippine Clinical Research Professionals, Inc. (PCRPP) is a professional organization composed of individuals who are engaged in the conduct of clinical trials in the Philippines. Many of us work for pharmaceutical companies and contract research organizations (CROs). Our members are at the forefront in the conduct of international, global clinical trials here in the country. More information about us can be found at [www.pcrp.org.ph](http://www.pcrp.org.ph)

Philippine Clinical Research Professionals Inc.

# Every Good Act Counts

PCRPP's fund drive for the benefit of the healthcare workers amidst COVID-19.

As a response, our organization is initiating this fund drive to aid in the purchase of medical supplies (mask, PPE, etc.) for our frontliners.

You may send your cash donations via bank deposit/ electronic transfer to the following details:

Bank: Bank of the Philippine Islands (BPI)  
 Account Number: 0241-0295-65 (Current)  
 Account Name: Philippine Clinical Research Professionals, Inc.

Kindly send a picture of the deposit slip / electronic transfer transaction with name of donor to: philclinresprof@gmail.com

PCRPP BOD 2019-2021

## What is out there?

- Navigating the new norm
- Artificial Intelligence
- Decentralized Clinical Trials
- Future of site infrastructure
- Quality & Risk Management
- Future monitoring skills & competencies, moving to RBQM
- Role of PCRPP

### Risk-based Quality Management

#### Potential Benefits of Using Decentralized Clinical Trials

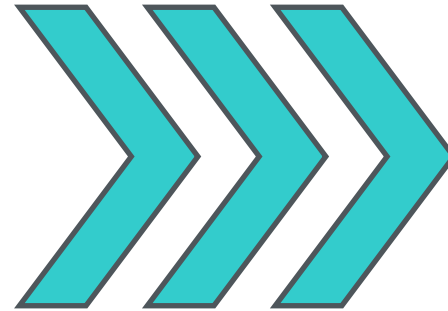

- Strong industry leadership
- Active stakeholder
- Resilient, dynamic & responsive

- Strengthen monitoring competencies & oversight skills
- Retrofit PCRCP By-Laws for future landscape (Ethics Committee, BOD-Honorary Members)
- Consultative - transparent communication

*“We get to decide now what kind of an organization PCR will become...”*
